

DID YOU GET OUR MESSAGE, TUESDAY?!

Hello there, again, we are the American people. Have we got your attention yet?

It's the sham of a health care reform bill ... stupid!

It's the Senate sell out to the drug and medical insurance corporations . . . stupid!

The American people were so desperate to stop this cruel joke of a reform bill, that even in the bluest of states a compelling majority were driven to vote for a candidate with the initials A.B.D. ... Anybody But the Democrat.

Let us be very clear (as you are so fond of saying), and make no mistake, this happened because for the entire last year you've told your most loyal and dedicated constituents, your core, your base, to go fly a kite. That's just about the exact words that Rahm Emanuel used when he said the left no longer mattered and could just be ignored, unions too, just throw their concerns over the side as well, and finance health care on their backs alone.

You can't run on a platform of hope and then take every opportunity to dash that hope. What the American people wanted was some kind of Medicare for All, any kind of Medicare for All. And that's what we still want.

Or you can keep trying to stuff HumanaCare, or CignaCare, or whatever you want to call it down our throats. Just exactly how many seats DO you want to lose in the midterm elections?
